

DESCRIPTION

The Bachelor of Arts in Law programme equips students to interpret and apply law and contribute to the development of the African political system. The programme also aims to offer personal and professional formation through the development of the students' leadership skills and their understanding of the Humanities within the Southern African context. The programme will enable students to serve in a variety of capacities in the private and public spheres. It will provide the student with the knowledge base, theory, methodology and application relevant to the core areas of private law. The programme will also equip students to be public intellectuals and reflexive practitioners who work for change within Africa. They will learn analytical skills to interpret the political context creatively.

They will also gain ethical leadership skills that equip them to lead and mobilise organisations and communities towards societal transformation. Students can pursue careers in law, journalism, politics, management, intelligence, and public administration. Through innovative learning approaches, the qualification promotes an inclusive and transformative ethos of reconciliation, equality, justice, and peace. The programme also serves as an alternative route for entry into the LLB (Level 8) degree.
