

DESCRIPTION

The STADIO Postgraduate Certificate in Education in Senior Phase and Further Education and Training Teaching will equip graduates with educational theory and methodology to teach the required subject content knowledge and enable them to demonstrate competence and responsibility as academically and professionally qualified beginner teachers. The PGCE (Senior Phase and Further Education and Training Teaching) accredits a professional teaching programme that 'caps' an undergraduate degree or an approved diploma. It offers entry-level initial professional preparation for undergraduate degree or diploma holders who wish to develop focused knowledge and skills as classroom teachers in one chosen subject in the Senior Phase and one chosen subject in the Further Education and Training (FET). To this end, the qualification requires a specific depth and specialisation of knowledge, together with practical skills and teaching experience to enable successful students to apply their learning as beginner teachers in schools in varying contexts.

The programme will build on subject knowledge content, together with the principles, practices and methods of teaching, and workplace experience, to enable successful students to apply their learning as beginner teachers to implement the National Curriculum Statements. They will have a wide range of theoretical understanding, competencies and practical skills to deal with a diverse range of learners in schools in a wide range of learning situations and contexts. They will reflect critically on their own practice and demonstrate initiative and responsibility in both an academic and professional teaching environment. The PGCE (Senior Phase and Further Education and Training Teaching) will allow the student who completes the qualification successfully to be registered with the South African Council for Educators (SACE) as a fully qualified educator with sound knowledge and expertise in one subject in the Senior Phase and one in the FET.

ADMISSION REQUIREMENTS

- an appropriate Bachelor's degree (NQF 6/7); **OR**
- an appropriate 360 credit National Diploma (NQF 6).

An appropriate degree will include sufficient disciplinary learning in appropriate academic fields to enable the development of subject specialisations. To be eligible for particular school subject specialisations in the Postgraduate Certificate in Education (Senior Phase and Further Education and Training Teaching), students must have passed at least one of the desired school subjects at second year or NQF Level 6 for the Senior Phase and the other desired school subject at third year or NQF Level 7 for the Further Education and Training. An appropriate three-year and 360 credit National Diplomas offered by accredited public and private higher education institutions in approved fields of study may also be appropriate for admission into PGCE. Refer to list of these approved fields as specified in Appendix E of the Policy on Minimum Requirements for Teacher Education Qualifications (MRTEQ). You may download the PGCE Admission Selection Requirements document on our website (Under the Entry Requirements section of the PGCE qualification).

If a student did not cover sufficient disciplinary subject matter in a prior degree or diploma, the student is then required to study and complete additional subject-oriented modules. Students can do this concurrently to a maximum of 32 credits before the qualification is awarded.

Please note that Technical Vocational Education and Training (TVET) qualifications do not enable entry into the PGCE programme. In addition, a prospective student's conversational competence in an African Language as well as competence in computer proficiency will be assessed upfront on application, and if necessary, students will be required to complete additional modules to reach the required levels of competence.

You may download the Additional Application Requirements document on our website (Under the Entry Requirements section of the PGCE qualification) for full details.

OTHER ACCESS PATHWAYS

MINIMUM SYSTEM REQUIREMENTS

- Wi-Fi: Reliable broadband Internet access (Wi-Fi is available on all of our campuses, but you may prefer access from home as well).
- Web browser: Microsoft Edge/Chrome/Safari/Opera/FireFox.
- Computer/Laptop: A current Windows or Apple Mac computer/laptop capable of running the Office 365 software (which STADIO provides you as a STADIO student). Office 365 includes Word, Excel, PowerPoint and Outlook.
- PDF Viewer: The free Adobe Acrobat software.
- Scanning documents: Ability to scan and upload documents (typically from your cellphone or smartphone).
- Email/cellphone for notification and communication.
- Communication: A cellphone or smartphone for receiving notifications and communication (additionally WhatsApp is recommended for collaborating in student groups).

SCHOOL-BASED TEACHING PRACTICE

Teaching practice is a core component of the Postgraduate Certificate in Education (PGCE) programme. The time you spend in schools during teaching practice is essential for building your experience and development as a future teacher. During the compulsory teaching practice period, multiple assessment methods will be used to evaluate you, including written assignments, lesson assessments conducted by mentor teachers and School of Education (SOE) teaching practice assessors, and your eventual Portfolio of Evidence. The SOE will monitor and verify your placement at a host school. Teaching practice may only commence once the Work-Integrated Learning (WIL) Team of the SOE confirms the placement. You are responsible for securing leave from your employer for the duration of the teaching practice period.

You must complete eight (8) weeks of teaching practice in different South African schools, working under the supervision of qualified mentor teachers. You are required to attend the school for the full duration of the school day, from Monday to Friday, and participate in assigned extracurricular activities. You are responsible for covering your own transport costs to and from the school. If you are already employed at a school, your school must meet our minimum requirements of a suitable host school for teaching practice. If your school does not meet our minimum requirements of a suitable host school, or if a suitably qualified mentor teacher is not available at your school, you will need to complete your teaching practice at another school. Employed students must submit a letter of employment from their school to the WIL team.

The compulsory eight-week school-based teaching practice component consists of the following:

- Teaching Practice 1 (TP701) requires three weeks in a school teaching in all the subject specialisations for which you are registered during the STADIO semester one academic period
- Teaching Practice 2 (TP702) requires five weeks in a school teaching in all the subject specialisations for which you are pursuing your PGCE. This must include your subject specialisations in both the Senior Phase and Further Education and Training Phase.

Students are required to teach in all their registered subject specialisations in the Senior Phase (grades 7 – 9) and Further Education and Training Phase (grades 10 – 12).

Students will register for the WIL modules based on the intake month and duration of the programme for which they are registered.

RULES OF PROGRESSION

To complete the qualification the student must successfully complete the following modules:

- Education Studies: Theory and Practice – Compulsory
- Education Studies: Contextual Perspectives – Compulsory
- Teaching Practice PGCE 1 and 2 – Compulsory
[Students must register for Teaching Practice PGCE 1 before Teaching Practice PGCE 2]
- Teaching specialisation in the Senior Phase 1 and 2 – Elective
[Students must register for Teaching Specialisation Senior Phase 1 before Teaching Specialisation Senior Phase 2]
- Teaching specialisation in the FET 1 and 2 – Elective
[Students must register for Teaching Specialisation FET 1 before Teaching Specialisation FET 2]

- Computer Literacy Endorsement: Students graduating with a PGCE must be computer literate.

If a student has successfully completed a module in End-User Computing at an accredited Higher Education provider, they may apply for a transfer of credits under the Credit Accumulation and Transfer (CAT) policy. Alternatively, if a student has acquired the required End User Computer skills through informal/non-formal learning, they may apply for the EUC exemption assessment under the Recognition of Prior Learning (RPL) policy. You may download the Additional Application Requirements document on our website (Under the Entry Requirements section of the PGCE qualification) for full details.

- Language endorsement: Students graduating with a PGCE must have conversational language competence in an African language.

If a student has successfully completed a module in an African Language at an accredited Higher Education provider, they may apply for a transfer of credits under the Credit Accumulation and Transfer (CAT) policy. Alternatively, if a student has acquired the required competency in an African Language through informal/non-formal learning, they may apply for an exemption assessment under the Recognition of Prior Learning (RPL) policy. The Language Conversational competency assessment is an oral diagnostic assessment designed to evaluate proficiency in an African Language. You may download the Additional Application Requirements document on our website (Under the Entry Requirements section of the PGCE qualification) for full details.

RULES OF PROGRESSION

Students have a choice of an optional second teaching specialisation in either the Senior Phase or FET Band. Students who choose to register for the optional second teaching specialisation will therefore complete three (3) teaching specialisation modules. Students will also have to teach all three specialisations whilst on teaching practice. The choice of an optional second teaching specialisation will depend on the availability of the modules and the module schedule i.e. no clashes between modules.

Students must pass all modules in order to achieve the Postgraduate Certificate in Education in Senior Phase and Further Education and Training Teaching qualification. The pass mark for each module is 50%.
