STADIO
HIGHER EDUCATION

HIGHER CERTIFICATE IN SOFTWARE DEVELOPMENT

NQF 5 | MIN. 120 CREDITS | SAQA ID: 119053 | MIN. 1 YEAR

STADIO FLEX CAMPUS: RUSTENBURG

DESCRIPTION

A software developer's role involves more than just knowing how to code! The Higher Certificate in Software Development aims to equip anyone wishing to enter the software development field with sufficient skills to do so. The main objective of this programme is to provide the student with a broad knowledge of the most important aspects of software development, including understanding hardware and software interaction, software analysis and design (focusing on the object-oriented paradigm), database management and use, software implementation, testing and maintenance, as well as the security issues impacting the entire development cycle. The student will be equipped with problem solving and programming skills, ranging from algorithm development to the more advanced skills of programming using the Python scripting language. This programme will equip the student with the basic knowledge and skills needed to develop a reasonable-sized software application to automate the solution of a business problem of medium complexity, by participating in a 20-credit software development project. Moreover, students will be taught to consider legal, social and ethical implications in all aspects of the software engineering process, encompassing both existing and potential future technologies. This programme will equip learners with a sound theoretical foundation in respect of the software development discipline and develop the application skills required for entry into the IT job market.

ADMISSION REQUIREMENTS

- a National Senior Certificate (NSC) with a minimum of 30% in English Home Language or English First Additional Language; and a minimum of at least 40% for either Mathematics or Information Technology, or a minimum of at least 70% for Mathematical Literacy; **OR**
- a National Senior Certificate (Vocational) (NC(V)) at Level 4, with a minimum of 30% in English Home Language or English First Additional Language; and a minimum of at least 40% for either Mathematics or Information Technology, or a minimum of at least 70% for Mathematical Literacy; **OR**
- a Senior Certificate (SC) with a minimum of 30% (F) in English First Language(HG) or English Second Language (HG); and a minimum of at least 40%(E) for either Mathematics (HG) or Computer Studies (HG), or a minimum of at least 70%(B) for Mathematics (SG); **and in addition**
- a minimum of 50% for the compulsory non-credit bearing entry/access module Computational Thinking, which is offered at the start of the programme, and which includes a provision for students to write an early test in order to fulfil this requirement.

Applicants who do not meet the admission requirement for Mathematics, Maths Literacy, IT, or CAT will be conditionally admitted and registered for a online bridging programme in their first semester (at no extra cost). They must pass a bridging programme to continue with the Higher Certificate in Software Development.

OTHER ACCESS PATHWAYS

MINIMUM SYSTEM REQUIREMENTS

- Wi-Fi: Reliable broadband Internet access (Wi-Fi is available on all of our campuses, but you may prefer access from home as well).
- Web browser: Edge/Chrome/Safari/Opera/FireFox.
- Computer/Laptop: A current Windows or Apple Mac computer/laptop capable of running the Office 365 software. Office 365 includes Word, Excel, PowerPoint and Outlook.
- PDF Viewer: The free Adobe Acrobat software.
- Scanning documents: Ability to scan and upload documents (typically from your cellphone or smart phone).
- Email/cellphone for notification and communication.
- Communication: A cellphone or smartphone for receiving notifications and communication.

SCHOOL OF INFORMATION TECHNOLOGY

STADIO is registered with the Department of Higher Education and Training as a private higher education institution under the Higher Education Act, 1997. Registration Number 2008/HE07/004.
DISCLAIMER: The content of this brochure is accurate at the time of publication. STADIO reserves the right to change the programme content due to changes in legislation, as well as for market requirements and other reasons. Notice of such changes will be published on our website.

CURRICULUM OUTLINE

SEMESTER 1	1st YEAR	
Compulsory Modules (All)	Computational Thinking for Problem Solving	CTPS152 (0 credits)
	Fundamentals of Information Technology	FIT152 (10 credits)
	Introduction to Databases	IDB152 (10 credits)
	Introduction to Programming and Program Development	PPD152 (20 credits)
	Software Engineering	SEN152 (10 credits)
	Technology and Society	TAS152 (10 credits)
SEMESTER 2	**1st YEAR**	
Compulsory Modules (All)	Fundamentals of Object-Oriented Analysis and Design	FOAD152 (15 credits)
	Introduction to Web Programming	IWP152 (15 credits)
	Information Security for IS Practitioners	ISP152 (10 credits)
	Software Development Project	SDP152 (20 credits)
CREDITS PER YEAR	**120**	

ARTICULATION POSSIBILITIES

Students who have completed credits at another higher education institution may apply for the transfer of those credits in line with STADIO's CAT Policy. The recognition of credits for the purpose of transfer from one qualification to another is determined by the nature of the qualifications, the relationship between them, the nature, complexity, and extent of the curricula associated with the specific subjects to be recognised for credit and the nature of the assessment used. A maximum of 50% of credits of a completed qualification may be transferred via CAT, while all credits from an incomplete qualification may be transferred, provided that no more than 50% of the credits on the receiving qualification are awarded via CAT.

CAREER OPPORTUNITIES

- DATABASE ADMINISTRATOR
- ENTRY-LEVEL SOFTWARE DEVELOPER
- ENTRY-LEVEL WEB DEVELOPER

STADIO is registered with the Department of Higher Education and Training as a private higher education institution under the Higher Education Act, 1997. Registration Number 2008/HE07/004.

WHAT IS STADIO FLEX?

STADIO Flex offers students a supported distance learning experience that combines the flexibility of distance learning with structured group classes and seminars that provide a guided learning experience and reduce the isolation of distance learning. As a STADIO Flex student, you meet and connect with other students, benefit from a fully equipped information and resource centre, have readily available connectivity via campus Wi-Fi that supports seamless study progression, and have ongoing access to individual, personalised support from full-time academics and student support staff on campus.

YOUR LEARNING JOURNEY

When you enrol, in addition to receiving your study material and student support resources online and a printed copy of the study guide (optional), STADIO Flex (SF) students will receive a timetable of group classes and seminars spread across 8 weeks per semester. Students are invited to attend two one-hour group classes per week for each of their registered modules. These engagement sessions guide students through the module content using practical examples and case studies, ensuring that the application of learning is prioritised. Seminars presented by experienced guest lecturers and industry experts are a regular feature of SF, increasing learning impact, networking opportunities, and promoting workplace readiness. In addition, at the start and throughout the first semester, students attend planned orientation and student support sessions to help them successfully transition into and through higher education.

The timetable is purposefully structured to ensure students have an engaged and productive campus experience, while also acknowledging that, as distance learners, they may need time for other commitments.

All in-venue assessments (at the end of the semester) are scheduled on campus, and students have the advantage of sitting for their supplementary exam before the commencement of the next semester, to facilitate academic progression.

Critically, STADIO entrenches programme parity and quality irrespective of mode of learning – whether you enrol for contact learning, distance learning at the Musgrave or Krugersdorp campus, or SF in Rustenburg, the curriculum and learning outcomes for the same programme will always be equal. What differs is how teaching and learning is presented and supported. STADIO Flex students can therefore focus on their studies, knowing they are receiving a quality education that reflects the overall excellence of the STADIO brand.

Upon enrolment, you will be integrated into the exciting buddy programme. Students are partnered with an academic staff member who serves as a personal point of contact throughout their studies to help navigate challenges and provide important support.

Why Choose STADIO Flex? You will benefit from:

- Affordable, flexible distance learning that purposefully integrates supported teaching and learning to promote student success.
- Regular, scheduled face-to-face group classes presented by academic experts, and seminars presented by industry specialists.
- Personalised guidance through the Buddy Programme.
- Consistent academic quality across all Campuses.
- Personal connection with lecturers, staff and fellow students.
- A structured study pathway designed to keep you motivated and on track.
- Convenient access to in-venue assessments and supplementary examinations.
- Access to learning resources, Wi-Fi on campus, and planned campus events and activities.

STADIO is registered with the Department of Higher Education and Training as a private higher education institution under the Higher Education Act, 1997. Registration Number 2008/HE07/004.
