

What does the student of the future expect from higher education institutions?

Thoughts on this subject by Ian Mann

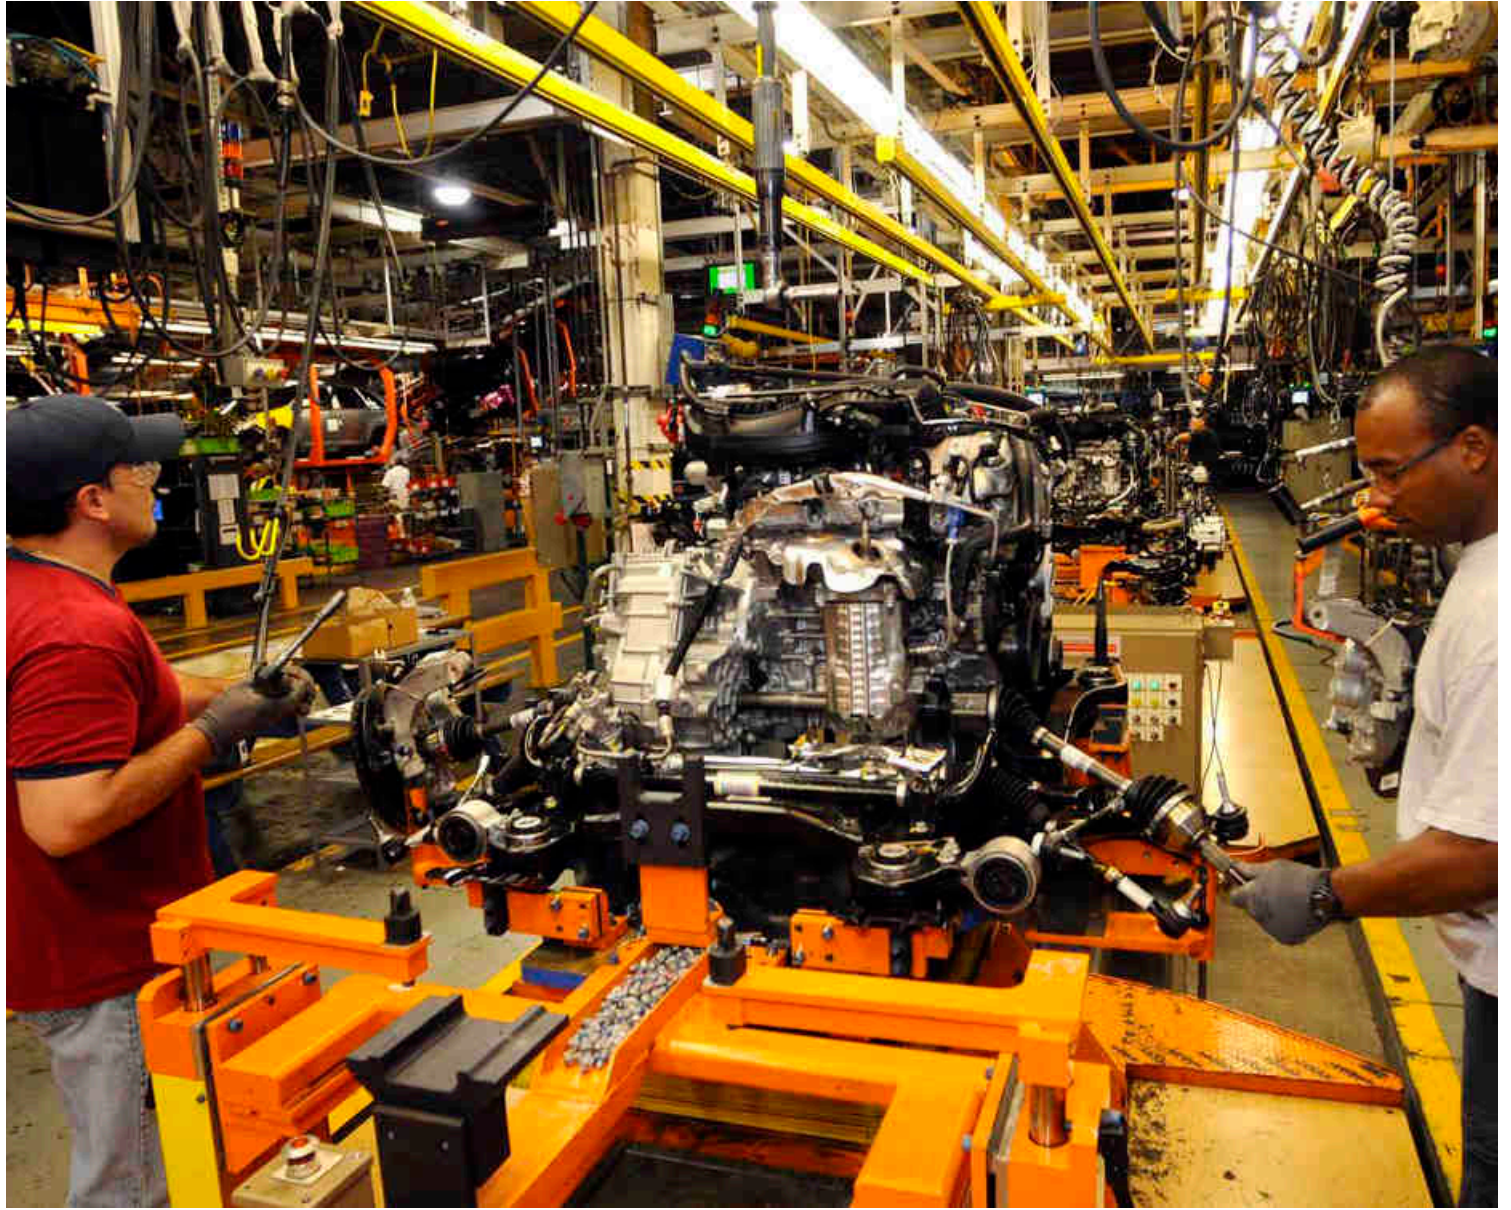

Opinion

1. Attend many more times
2. Look for new/updated access skills
3. Tutoring or coaching
4. Paid for partially or fully by Government

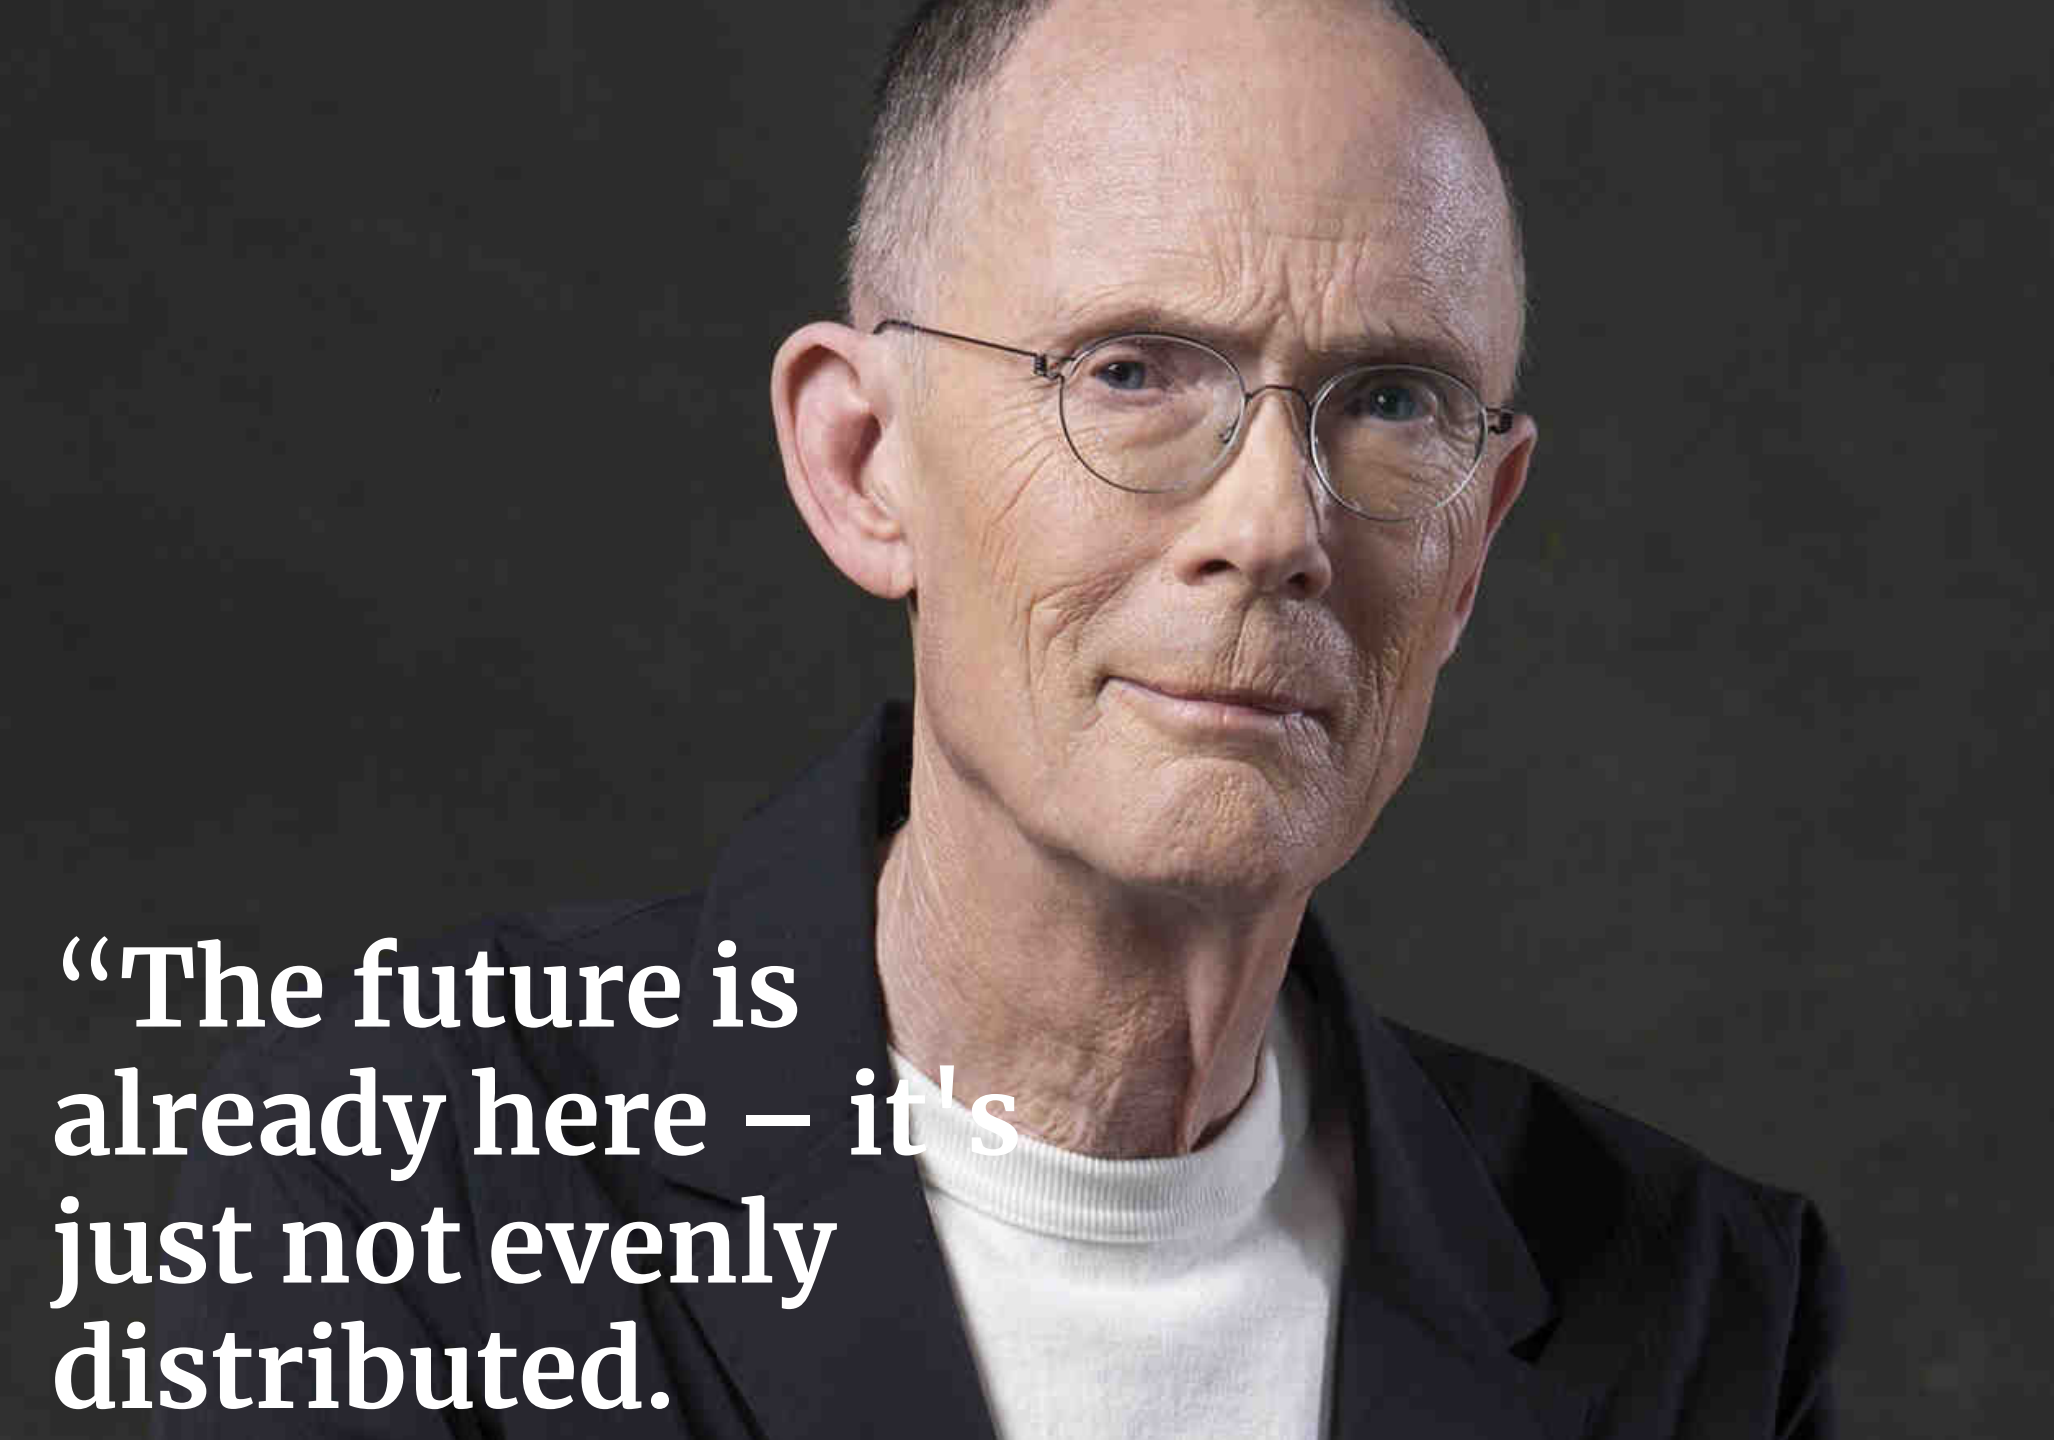

complicated or complex?

William Gibson

A portrait of William Gibson, an older man with glasses, wearing a dark jacket over a white turtleneck. He is looking slightly to the right of the camera with a thoughtful expression. The background is dark and out of focus.

“The future is
already here – it's
just not evenly
distributed.”

1. “We’ve been here before,
and it turned out fine.”

3. “Humans and AI will
collaborate, not compete.”

2. “AI will make our jobs
better, by doing the
boring parts for us.”

4. “AI won’t cause mass
unemployment because human
needs are limitless. In the future,
we’ll come up with new jobs we
can’t even imagine today.”

10

AI will destroy everything we hold dear

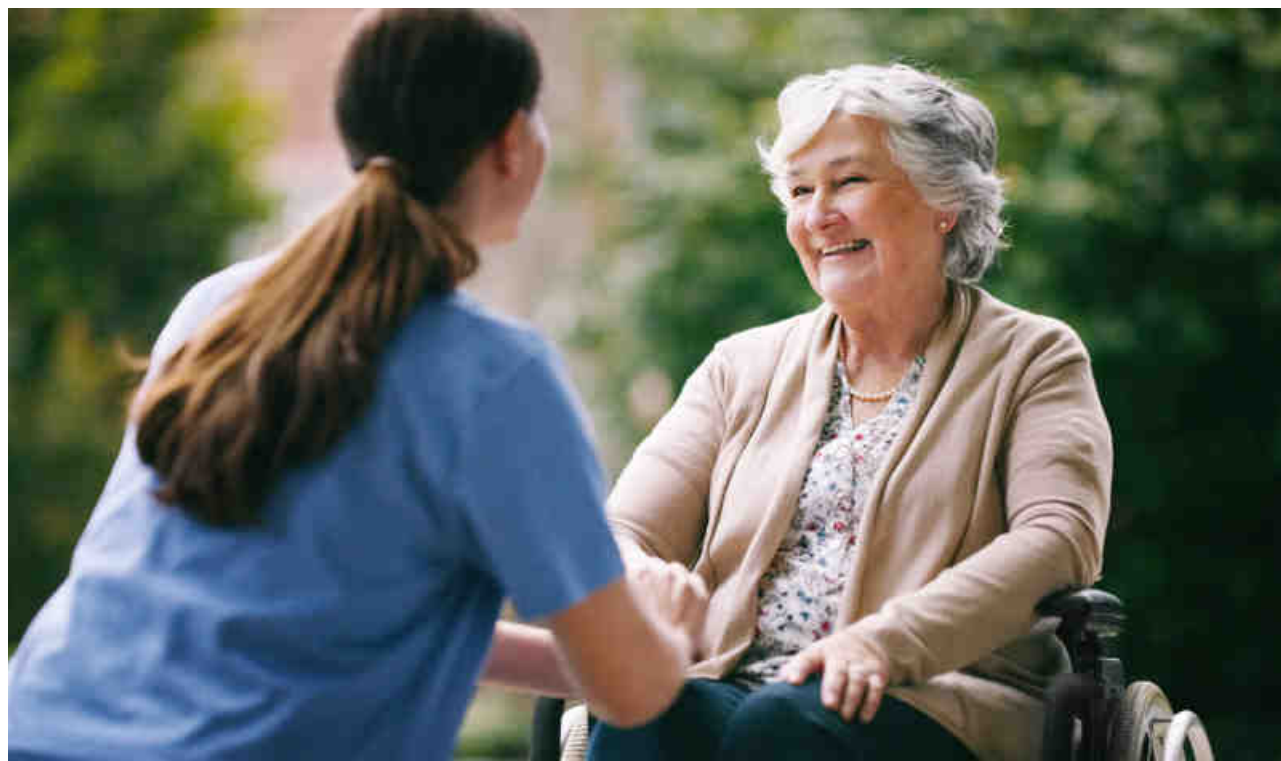

1

AI will cause no economic or societal problems

You can't reap
what you didn't
sow.

Sowing too late,
is too often, too
late.
