ONLINE SHORT LEARNING PROGRAMME INTRODUCTION TO PROCUREMENT AND SUPPLY CHAIN MANAGEMENT

powered by 

COURSE INFORMATION:

-  **Minimum duration:** Self-study within 2 weeks. Minimum focused learning time required: approximately 24 hours.
-  **Minimum credits:** Certificate of Completion
-  **Complexity level:** This Online SLP provides a coherent, quality learning experience with predetermined learning outcomes and objectives. The course is non-credit bearing, not registered with the South African Qualifications Authority (SAQA), and does not lead to a qualification or part-qualification registered on the National Quality Framework (NQF). At the same time, successful completion of the Online SLP can be included in your portfolio of evidence for Recognition of Prior Learning (RPL) consideration for access to a full qualification.
-  **Mode:** Unassisted Online Learning
-  **Fees:** R800
-  **Language:** English

COURSE OVERVIEW:

Gain introductory knowledge of procurement and supply chain management in South Africa. Discover the changing role of the procurement function and examine the status of artificial intelligence, resource scarcity, environmental sustainability and trade perfectionism in supply chains. The Short Learning Programme is ideal for any individual looking for a sound introduction to procurement and supply chain management.

There are no entry requirements for this Online SLP. However, it is recommended that the applicant has achieved English language competence at a level that is equivalent to Grade 12.

Earn your Certificate of Completion and add the following to your CV:

"Successfully completed the STADIO Online Short Learning Programme: Introduction to Procurement and Supply Chain Management"
